# TL-LED lamp

Item Name: T8 LED Tube 1.2m

1. Commercial and residential lighting: ideal for office, conference room, supermarket, restaurant, school, library, hospital, living room, etc.
2. Energy-Efficient & Environmental Friendly: 70%-80% energy saving over traditional fluorescent tubes.
3. Two kinds of voltage ranges: AC100-160V and AC200-260V lead to lower power consumption.
4. Environmental protection: without mercury and other harmful material.
5. 50000-80000 hours lifetime
6. Easy mounting: work without ballast, no need other traditional driver and starter.
7. Aluminum Alloy body and Plastic cover.
8. No flickering & FR interference, instant soft start, low heat.
